INFINIUM
defining glass walls

November 16, 2022

INFINIUM Wall Systems, Inc
Certificate of Compliance

This document hereby certifies that Infinium Wall Systems, Inc has audited it's Quantum Butt-Glazed and Refine Unitized wall systems to a disclosure level of 1000 PPM (0.1%) based on standard product configurations and can confirm that none of the following chemicals are included:

- Formaldehyde.
- Anti-microbials.
- Bisphenol A.
- Halogenated flame retardants.
- Heavy metals (including arsenic, beryllium, lead, mercury, cadmium, hexavalent chromium, and antimony).
- Isocyanates (site-applied Products only).
- Perfluorinated Chemicals (including Per- and Polyfluoroalkyl Substances (PFASs)*.

In certain configurations of Infinium Wall Systems, Inc's Refine Unitized system, the below ingredients may be present in amounts slightly exceeding 1000 PPM (0.1%), due to components required to maintain the structural integrity of the product.

- Diisononyl Phthalate (DINP)
- Polyvinyl chloride (PVC)

Additionally, Infinium Wall System's certifies that standard door hardware can be provided meeting the below requirements:

- No Antimicrobial Treatments
- No Added Lead
- No Hexavalent Chromium
